DETAILED ACTION

This action is responsive to the amendment filed 02-01-2006, which has been entered.

Claims 1-9 are allowed.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior art fails to anticipate or render obvious the combination of a pivoting chain guide and tensioner assembly as set forth in claim 1, and in particular, include at least one chain bracket plate partially surrounding the chain between drive and driven sprockets, the bracket includes a tensioner arm pivotally attached to the bracket plate on one side of the chain loop and a guide rigidly attached to the bracket on the opposite side of the loop opposite the tensioner, the bracket plate contains a receiving hole for a pivot at the central axis connecting the drive and driven sprocket such that when a high load or wave energy is applied to the chain the bracket plate pivots on the pivot moving the tensioner relative to the chain.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcus Charles whose telephone number is (571) 272-7101. The examiner can normally be reached on Monday-Thursday 7:30 am to 6:00 pm.
